For Design Ideas Visit Our FIND A PLAN page at www.BbqCoach.com
**The Only Welded Frame You Can Screw Together!**

**HEAVY DUTY**

**BBQ COACH TIPS:**

Start in the corner of your location and assemble one module at a time. When you get to the last section of each leg of your island, measure and cut the 4 length wall tracks to a custom length module before assembly.

**Custom Depth** you can pre-cut the 4 end frame tracks down from 32” to another size like: 30, 28 or 24”. *Note: you are responsible if you cut it to short and your appliances do not fit.*

**Welded Tube Corners**

2 Pieces of Tubular Steel Welded Together for Super Strong Corners

**Welded BBQ Frames** cost $200 ln ft.

BBQ Coach mass produces 4ft module kits for low prices under $50. ln ft. Great Price for Welded Heavy Duty Steel!

**BBQ Coach Tube Corners Give You** Perfect 90 degree Angles.

Buy as many 4ft, 5ft & 8Ft module’s as needed to fill your space.

**18 Gauge Heavy Duty Steel Tracks**

For Professional Grade
**DIAGONAL CORNER MODULE**  PART # BBQ-mod-DC
Reg Price $235

The Diagonal Corner Module Frame Kit includes the perimeter frame only. You will need to buy Universal Cutout Kits plus connectors to frame cutouts for a Sink, Egg Smoker and/or access door on the front. If you plan to have no appliances in the counter top we recommend you install the sink kit to support the counter top. **Additional Parts Needed** shown in chart below. For egg add 3 universal cutout kits + 4 horizontal connectors. For a sink or counter top support add 1 universal cutout kit + 4 Horizontal Connectors.

How To Trim Modules

With any DIY Project you have to do some cutting. If you do a tile job you will need a tile cutter. If you do an electrical job you will need wire cutters. If you want to build your own outdoor kitchen frame your going to need a chop saw.

Dry Cut-Off Saw is the Safest and Easiest way to cut steel studs and tracks. At Harbor Freight Tools they have a 6” for around $45 and a 14” the most popular size for around $90. Make sure to also get a full face safety shield, leather gloves and the blade to cut metal. Anyone can easily cut steel studs with this power too!

WARNING
A Full face shield and leather gloves should be worn when using a chop saw. MAKE SURE NO FLAMMABLE ITEMS ARE CLOSE BY THAT COULD IGNITE FROM HOT SPARKS, ESPECIALLY PROPANE TANKS. Follow all chop saw manufacturer instructions.

Watch Our Video on You Tube “How 2 Cut Steel Framing.” where the Coach shows how easy it is to do with a 14” chop saw.

14” Metal Cutting Blade cost $6-8.
TIP: Try to plan your island with 4 ft, 5 ft & 8 ft modules to eliminate the need for trimming the modules.

**Measure Your Space**

Select **enough 4ft, 5ft & 8ft modules to fill your space**. If needed you will trim the last module on each leg to fit. Visit www.Bbqcoach.com **click on step 1 to order these modules**.

**Select Design:** Straight Island—L Island - U Island

**Measure Maximum Lengths :**

A:

B:

C:

Circle Which Wings Have **Back Splash:** A B C

Circle Which Wings Have **12” Over Hang** A B C

Note: you combine Back Splash + Over Hang to create a split bar counter which is a very popular design.

**KEEP IT SIMPLE!**

Just buy enough 4 ft, 5 ft & 8 ft sections to fill your space. You will start in the corner and assemble one module at a time. When you get to the end of each leg you will trim the length wall tracks for a custom fit before assembly. Standard Depth is 32”. **Plan 32” depth to avoid cutting.**
BBQ Coach is the only manufacturer of 8 ft long modules that get the job done fast!

8 ft module Standard Height — HEAVY DUTY!  
Part# BBQ-MOD8  
Reg Price $499  Includes:  
- 4 tracks 93 5/8” long (add 3 3/8” for welded tube corners = 96”)
- 4 tracks 32” for end frames
- 4 welded tube corners for end frame corners
- 12 studs 35” high

8 ft module Bar Height — HEAVY DUTY!  
Part# BBQ-MOD8-BH  
Reg Price $599  
Includes:  
- 4 tracks 93 5/8” long (add 3 3/8” for welded tube corners = 96”)
- 4 tracks 32” for end frames
- 4 bar height welded tube corners for end frame corners
- 12 studs 41” high

Note: only use bar height cutout kits for this module

Note: Available April 1, 2019
**Step 1. Select MODULES**

### 4 Ft Straight Mod. Part# BBQ-mod4
- **Price $219.99 ea.**
- **Includes:**
  - 4 each Welded Tube Corners 35” High
  - 6 Each Heavy Duty Studs
  - 4 each 32” End Frame Tracks
  - 4 each 47 7/8” Length Wall Tracks

### 5 Ft Straight Mod. Part# BBQ-mod5
- **Price $249.99 ea.**
- **Includes:**
  - 4 each Welded Tube Corners 35” High
  - 6 Each Heavy Duty Studs
  - 4 each 32” End Frame Tracks

### 4 Ft Bar Height Mod. 41” TALL Part # BBQ-mod4-BH
- **Price $249.99 ea.**
- **Includes:**
  - 6 Heavy Duty Studs 41” High
  - 4 each 32” End Frame Tracks
  - 4 each 47 7/8” Length Wall Tracks
  - 4 each Welded Tube Corners 41” High

**Note:** You can combine 2 modules together and still center the grill or other appliance between the 2 modules. To do this you will follow our Jumbo Module Instructions at: www.BbqCoachSupport.com

**Note:** We no longer have open egg module, drop down burner module. These are now cutout kits that fit into modules.
Combine Reg Modules into Jumbo Modules

With the BBQ Coach Patent Pending Welded Tube Corners we can create much longer modules with only 4ft long tracks. How? The welded tube corners can be used as a union between 2 walls of steel track. In the example picture shown here on the right we used a tube corner in the rear to join the two 4ft modules together. After assembling the end frames and the rear wall, we then installed a grill cut out kit with welded tube corners in the dead center. With this system you can put your grill in the center of an 8ft module without cutting the top track with a dangerous grinder. This is much safer for homeowners.

Grill Cart Cutout Kit

Double Wall Grill Cart Cut Out Kit

part# BBQ-CO-DWGC   Max Width 56 5/8”
Includes: 2 welded tube corners, 1 track 56 5/8, 2 return tracks, and 4 horizontal connectors   Fits into a 4ft or 5ft modules, sold separate.

Photo shown to right the customer also built a grill platform. To make a grill cart platform you will need to buy extra track and studs.
BBQ Coach Has Created A TRUE NO CUT SYSTEM IF You Use Our Standard 32” Depth Modules and Select our Brand Specific Appliance Cutout Kits. Now Even The grill cutout kits do not require cutting. If You need a shorter module than 4 or 5ft we also sell pre-cut tracks to help you avoid cutting. The secret that allows us to offer you a no cut system is the combination of our Welded Tube Corners & Connectors.

DISCLAIMER: BbqCoach obtains cutout specs from manufacturers brochures & website. If cutout specs from manufacture are incorrect, buyer agrees to the following. If measurement is too long buyer will trim shorter, if to short seller will supply a new part.

NO-CUT CUTOUT KITS NOW OFFERED FOR TOP BRANDS OF COMPONENTS
Including: BBQ COACH, BULL, BLAZE, CAL FLAME, DELTA HEAT, DCS, FIRE MAGIC, LYNX, NAPOLEAN, PCM, RCS, SUMMERSET, VIKING...
Each of your chosen appliances need a universal cutout kit to provide the extra tracks, studs, and connectors to support it within the module frame. We have created packages below for most standard appliances.

If you have a grill—buy a grill cutout kit. If you have 3 doors—buy 3 door cutout kits... You will trim to fit.

### All Cutout Kits Include Connectors as needed for standard installation.

No More Dangerous Cutting of the top track if you Use This System!

ANOTHER BBQ COACH INNOVATION!!!  PATENT PENDING.

You can Use this system for:
Grills
Bar Centers
Slide in Side Burner
Fridge
Open Egg Smoker
Drop Down Power Burners
Grill Cart Openings

NEW Tube Corner Appliance Cutout Kits

PARTS INCLUDED With A Tube Corner Cut Out Kit
2 Tube Corners
2 Return Tracks
2 Tracks 7/8" ea. Behind/Below Grill
4ea Horizontal Connector
2ea Vertical Connectors

Diagram Shows  A Tube Corner cutout kit installed into a 4 or 5 ft Straight Module

With tube corners, you do not have to cut the top track out for the grill to slide in making it much safer for Homeowners.
Open Egg Cutout Kit. Part# BBQ-CO-OE

This cutout kit allows you to set the height of the platform for your brand and model Egg. Our 32” depth modules work perfect for the Big Green XL, Kamado Joe and Primo XL. If you want to install a single drawer under the egg then you will also need and XL Drawer Cutout Kit.

Power Burner Cutout

Open Egg Cutout Kit.

Drop Down Burner Cutout Kit. Part# BBQ-CO-DPB

This cutout kit allows you to set the height of the cutout for your brand Power Burner. The two standards for a drop is 6” or 12”. The 6” leaves more space if you want to add a single drawer below the burner. If you have no drawer then you may want the full 12” drop down.

module sold separate

BBQ Island Use To Be Constructed Of Concrete Blocks.

New Building Methods of Using Steel Studs Replaced this old fashioned and time consuming way of construction. However with little information many people mistakenly use light weight interior steel to build bbq islands. Big Mistake...

BBQ Coach was the first company to use Real Exterior Structural 18 Gauge Steel. Then we took it a step further with Welded Tube Corners and Connectors. We Believe If You are trying to replace concrete block that it only make sense to use Heavy Duty Steel with Welded Corners. Build It Right! Use BBQ Coach Kits!
6” High Back Splash Kit  Part # BBQ-BS6

Measure 2 1/2” x 41” high before you add decking board strips under the base of the frame. If you want to make a higher back splash kit you can mount our 12” over hang kit to the top creating an 18” high backsplash.

How To Create A Split Bar Counter

Combine our 6” high back splash kit part#BBQ-BS6 with our 12” over hang kit  Part # BBQ-OH12

4” OVER HANG KIT  Part # BBQ-OH4

This frame is required for Tile Counter tops that will over hang the counter. It is not needed for Granite or concrete slabs. No hidden bar supports needed. Recommended for tile counters over stone siding to keep the water out from behind the stone. Water getting behind the stone can make the stone fall off in time.

12” OVER HANG KIT  Part # BBQ-OH12

This frame is required for Tile Counter tops that will over hang the counter. It is optional for Granite and concrete slabs. It requires hidden bar supports part #BBQ-HBS sold separate to reinforce it.
4 Ft of 6” high Back Splash

6” High Back Splash Kit
Part # BBQ-BS6
Reg Price $85.71  **SALE $59.99**

**Includes:**
- 2 ea. 2 1/2 x 47 7/8” Tracks
- 5 ea. 2 1/2 x 41” Bar Studs
- 4 ea. Connector plates

Back Splash Adds 2 3/4” to the rear of the module. A 32” depth module plus back splash has a 34 3/4” foot print

**TIP TO MAKE A 18” High Back Splash**

Add a 12” over hang kit and mount to the top of the 6’ high Back Splash. Make sure to overlap both sections with one sheet of cement board for extra strength at the seam. Use connector plates.
12" OVER HANG KIT
Part # BBQ-OH12
Reg Price $57.11 SALE $39.99
Includes:
2 ea. 2 1/2 x 47 7/8” Tracks
5 ea 2 1/2 x 12” Studs

Hidden Bar Supports SOLD SEPARATE
Required to reinforce the 12” over hang.

Tile Counter = 2 Hidden bar supports per section
Split Bar Counter = 1 Support approx. every 2 ft
Concrete Counter = 1 Support every 12” on center

Split Bar Counter
To make a split bar counter you will order the 6” back splash kit plus the 12” over hang kit plus hidden bar supports.
G4000 Rounded Over Hang

G4000 Part# BBQ-G4000

Reg Price $199.99

Rounded Overhang Frame Kit.

This kit makes a nice rounded overhang on the end of the island that can stand alone or tie into a split bar counter as shown in the photo to the right.

Adds approx. 22” to the end of the island.

Requires 2 hidden bar supports sold separate.

Includes:
- Rounded curve track
- Transition Bar Wall Parts
- Table Studs

Not Included: cement board, hidden bar supports, screws, vents, etc...

For curve use 1/2” Perma Base Flex cement board. If not available cut small 4” strips and cover with thin-set.

Install 1/4” thick cement board under all over hangs.
Use screws + Adhesive
A. 5 ft Module + Grill Kit + XL Drawer kit + Slide in side Burner Kit + Door Kit
B. 5 ft module + sink kit + door kit + CTT
C. 5 ft module + Standard Vertical Drawer Kit + Fridge kit + CTT
D. 2 each 4ft of 6” High Back Splash Kits

E. 3 each 4 ft sections of 6” high back splash kit + 3 each 4ft sections of 12” over hang kit + 6 hidden bar supports to reinforce the over hang.

NEEDED Extras: 3 box framing screws, 1 box decking board screws, 1 –2 box cement board screws, 4-5 air vents, Sea 4 packs of decking board strips, 1 pack shims, 4 electrical boxes for steel framing.
Step 4. Needed Extra's

SOLD Separate: Screws, Air Vents, Shims, Decking Board Strips, Stucco.

BBQ Coach Decking Board Screws
Part # BBQ-DS1
Sold in 1 lbs boxes. Needed to screw your frames together.
Buy 1—5 boxes

BBQ Coach Decking Board Screws
Part # BBQ-DB4pk (4 pcs)
Part # BBQ-DB1 (1 pcs)
You need 4 per module plus one under each backsplash section

BBQ Coach Composite Shims
Part # BBQ-SHIM
A must have to install cement board and level your frame.

BBQ Coach Cement Board Screws
Part # BBQ-CB4
Sold in 4 lbs boxes. Needed to screw your cement board to the frame.
Buy 1—2 boxes.

BBQ Coach Connector Plates
Part # BBQ-CP
Sold 1 each
Buy 2 Connector Plates for each union of 2 modules.

BBQ Coach Hidden Bar Supports
Part # BBQ-HBS
Tile Counter: 2 per section (every 4ft)
Granite Slab: 3 per section (every 2 ft)
Concrete Slab: 1 every 1ft OC.

WARNING: VENTS REQUIRED
Outdoor Kitchen Islands with Gas Appliances Must be vented for safety. Not doing so can cause a deadly gas explosion. We recommend vents installed every 4-6 linear ft. They are also need for a fridge.

BBQ Coach Cement Board Stucco - White.
You can buy stucco paint to match the color of your house.

We recommend you pre paint the cement board with stucco adhesive or a concrete bonding adhesive. 1 gallon is enough for most islands.
Counter Top Supports CTT

Part # BBQ-CTT Counter top supports are needed for cement board seams and counter top support.

Example 1.
If you have a module with no counter top appliances then you are left with a big open hole. We install one counter top support in the center of the top of the module. SHOWN AS FIG. A

Example 2.
If you have cement board seam in the counter top you need a full CTT under each edge of the cement board. SHOWN AS FIG B AND C

1 CTT Includes:

- 2 ea. Horizontal Connectors
- 1 ea. Pre-Cut Track
Decking Board Strips are approx. 1" thick and are sold in packs of 4 at 32" length. Place 4 decking boards under the 4ft module as shown in picture above. You will also need to put decking boards under all modules, Back Splash, custom angle and/or foot rest kits.

Decking Board Strips—4 pack
Part # BBQ-DB4PK
Reg Price $60

4 Pack
SALE $47.99

Our Pre-Cut Composite Decking Boards Saves You Cutting!
Stainless Steel 32 Inch 4 Burner Gas Grill With Infrared Back Burner

- All commercial grade 304 stainless steel construction.
- Part# BBQ-Grill4  Reg. Price: $1799.99  **SALE PRICE IS ONLINE at www.bbqcoach.com**
- 12,000 BTUs per burner, total 48,000 BTUs. 12,000 BTUs for back burner.
- Heavy gauge 304 stainless steel main burners.
- 8mm stainless steel 304 cooking grates.
- Push and turn flame thrower primary ignition system, fire crossers secondary ignition system.
- Total cooking surface 718 sq inches.
- Flame tamers minimize flare-ups while adding a grilled flavor.
- Double-lined grill hood protects outer layer from heat discoloration and maintains more heat.
- Fuel type: LP or NG.
- Rotisserie kit sold separate
Cutout: 30 5/8” wide x 21 3/4” D x 8 1/2” H

**This Is a $1799. Grill When Compared to Similar Quality Brands**

The difference between the types of stainless steel is the amount of chromium and nickel found in each. 304 stainless steel contains a much higher percentage of chromium and nickel. This makes it much more resistant to rust.
DELMUXE DOUBLE SIDE BURNER

#1 Best Side Burner under $500.

For $20. our Outdoor Kitchen Designer Will review your top view drawing and email you a part list to order online.

**Step 1.** Visit www.BbqCoach.com and click on Shopping List to place your order online. After placing your order you can download the design forms that help us to better know what you want.

**Step 2.** Email your top view drawing like the sample below along with your completed design forms. **Email to: bbqcoachdesign@gmail.com** Make sure you include your order #. Please do not send long letters and extra materials as it can make more confusion than help.

**Step 3.** Allow 3-5 business days and we email you back a shopping list. All sale prices and shipping cost are calculated on the website. *Only 1 plan per order. Any changes require a new order & payment.*
Shipping—WE SHIP FAST!

Once we receive your order, you can expect your order to ship out in 1-5 business days. Orders over 500 lbs ship via freight on a pallet. With orders shipped via freight someone will need to be home to sign for delivery. Orders refused and/or sent back to us for any reason buyer will pay all shipping cost both ways plus a 20% restocking fee. If you place your order after 12 pm PST you would count from the next business day. Weekends and holidays our warehouse is closed and considered non-business days. The Computer will calculate the shipping cost to your location based on weight and zip codes. FREE SHIPPING on orders over $500 within the Continental USA only.

3 DAYS TO REPORT MISSING COMPONENTS/Grills OR DAMAGED ITEMS. 30 Days to Report Missing Frame Kit Parts.

You have 3 days to inspect your merchandise from date of delivery to report any damaged or missing items for an exchange only. No refunds. After 3 days from date of delivery buyer agrees to waive all rights to any claims of damaged or missing component/grill parts and 30 days for missing frame kit parts. All claims must be made in writing, via email thru your online account. If you do not know how to log into your account to send an email please call our customer service dept at 800-277-9508. Only account emails received within the 3 day period are eligible. Missing parts are sometimes on back order. All eligible missing or damaged parts are shipped via ground. We do not offer faster shipping. We are not responsible if you have hired contractors who are waiting to receive missing or replacement parts and buyer agrees that seller is not liable for these costs under any circumstances.

CANCEL YOUR ORDER   Once we begin packaging your order to ship it is too late to cancel as we have already invested time and labor to ship you the order. If you do cancel before it ships there is a 20% restocking fee. All orders for outdoor kitchens are different and require a lot of labor. Once the order is picked up by the carrier it can not be cancelled. Please note that some drivers do not scan the packages when they put them in the truck and might not show up in the system until later in the day or even next day with some carriers. ONLY EMAILS THRU YOUR ACCOUNT & ORDER # CAN YOU CANCEL.

RETURN POLICY   All Items are eligible for return within 14 days of delivery date, including weekends and holidays. After 14 days we can no longer accept returns. Buyer agrees to pay shipping both ways plus a 20% restocking fee on eligible and accepted returned items. Returns must be in new, unused condition in the original packaging. We recommend if you send back appliances to insure them at the correct value in case of damage during return shipping. We can not give refunds for damaged return items even if the carrier damages the item(s). For damaged return items buyer will need to file a claim with the carrier for reimbursement of the item. Frame kits should be double boxed.

NO RETURNS AFTER 14 DAYS. NO EXCEPTIONS, ALL EMAILS MUST BE MADE BY SIGNING IN TO YOUR ACCOUNT & ORDER # SO WE ARE GUARANTEED TO SEE IT. DO NOT SEND IMPORTANT EMAILS TO OUR GENERAL EMAILS ACCOUNTS. Leaving a phone message or sending an email to help@bbqcoach.com does not guarantee we see it. Thank you for your understanding.
